DETAILED ACTION

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a high-power amplifier that has, in combination with other limitations, matching condition changing means for changing a matching condition of said matching circuit in order to change an imaginary part of an output load impedance of the final stage amplifying element in response to output power of the amplifying device; nor does it have a voltage control means for controlling a base voltage or gate voltage of said amplifying device in order to reduce an idle current of said amplifying device when the output power of said amplifying device reduces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent # 6,169,455 B1 contains some limitations of the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PATRICIA T. NGUYEN whose telephone number is (571)272-1768. The examiner can normally be reached on 6:30 AM - 5:00 PM.
